Al-Rahmah Nursery & Child Care Center

Our vision is to develop the love for Allah (SWT) in the hearts of our future generations and prepare them to excel academically and emotionally, and spiritually, inshaAllah.

Mission

Our mission is to provide preschool age children with a safe, nurturing, and Islamic environment where they can develop socially, emotionally, physically, and spiritually. We strive for our children to develop the skills and character necessary to prepare them for their next school environment.

We utilize an investigative curriculum and engaging experiences. Learning for young children occurs in a multitude of ways; thus all our activities, inside the classroom and outside, are designed with this in mind. We model and practice Islamic values and etiquettes; developing the traits of strong and caring Muslims is extremely important to us!

Curriculum

Curiosity guides learning for children, and this is a value we enthusiastically encourage and nurture. The InvestiGator Club is an inquiry based curriculum, and is recognized by the Maryland State Department of Education. We follow monthly, cross curricular, thematic units to explore a variety of interests and topics for our 2-5 year olds.

Child Assessment

Children display developmental progress through their daily activities. At ARN we observe and document these in a number of ways. Teachers watchfully observe behaviors daily. At times, these observations are informal; other times they are documented through anecdotal records. Developmental checklists are also utilized, as created by the InvestiGator Club. Teachers assess the skills, behaviors, knowledge, and abilities of children in portfolios, which are available to share with parents during parent conferences. All information is used holistically to better inform instruction to address areas that require a little extra guidance.

Physical Fitness

Physical activity is critical for the development of gross motor skills in little children. It also oxygenates the brain, which leads to better focus and learning. As such, our children have access to a fun playground, weather permitting, located on the side of the building. The equipment is on a surface of wood chips, so please ensure your child wears closed-toe shoes. In cases of rain, extreme heat or cold, children are taken to the gym to engage in physical activities.

Screen Time

There is no screen time for children at ARN. As such, children are not allowed to have access to any electronics such as computers, laptops, cell phones, or game players etc. at any time while at school.

Any devices brought in will be kept in the office and returned only to authorized pick up adults.

Positive Behavioral Policy

The children and families of Al-Rahmah Nursery and Child Care Center are an essential part of our program. We make every effort to build and nurture positive relationships.

With families:

- Greeting with salaam and a smile
- Soliciting feedback through surveys
- Utilizing multiple methods of communication: email, phone calls, Brightwheel messages, etc.
- Having community events and celebrations throughout the year

With Children:

- Creating a safe and welcoming environment
- Having predictable daily routines
- Creating child-centered spaces
- Providing choices in various decisions
- Giving natural consequences (such as cleaning up spilled water)
- Utilizing positive reinforcement
- Redirecting through verbal communication, gentle touch, visual aids, and non-verbal cues
- Problem solving through reflection, talking, modeling, and dramatic play
- Setting clear rules and expectations with input from the children
 - Posting expected behaviors with pictures
 - Model and reinforce rules through dramatic play and stories

- Review and adjust expectations throughout the year

Referring to Child Find

Child Find is a resource available through the Maryland State Department of Education. Parents will be asked to have their child evaluated by Child Find if there are persistent disruptive or unsafe physical or emotional incidents that are beyond developmentally appropriate expectations. Additionally, if teachers have any other concerns that require further professional evaluation.

Please see https://www.bcps.org/offices/special_ed/child-find.html for eligibility requirements and further information.

Parental reluctance for evaluation by Child Find or another similar agency will result in the child's enrollment being withdrawn.

Suspension and Expulsion

Children displaying extremely disruptive behaviors will be asked to stay home for a minimum of 2 days, depending on the severity of conduct. Upon completion of the suspension period, ARN administration will recommend the child's withdrawal from the program if the behaviors continue.

Concerns and Grievances

Should you have a concern (academic, behavioral, etc.) about your child, please address it first with the teacher.

Concerns about staff members are best addressed with the concerned individual, prior to discussion with the director.

Concerns regarding policies, rules, and regulations should be addressed with the director only (mediha.talat@alrahmah.org)

Please discuss further with Head of School (saad.baig@alrahmah.org), and the ISB Board of Education (boe@alrahmah.org)
